OBJECTIVE

Highly motivated Computer Science (AI & ML) student with strong programming, data structures skills. I am eager to contribute to innovative projects and learn from industry leaders by working on real-world, impactful solutions.

EDUCATION

B. Tech in CSE(AI&ML), Vignan's Institute of Management and Technology for Women **2022 - 2026**
CGPA: 8.01/10 TS, India

Intermediate (MPC), Narayana Junior College **2020 - 2022**
Percentage: 87% TS, India

High School (SSC), Gopi Memorial High School **2020**
Percentage: 98% TS, India

SKILLS

Programming Languages	HTML, CSS, Java, Javascript
Database	My SQL
Developer Tools	Git hub, VS Code, Word, Excel, PowerPoint, Googlecolab,
Academic Coursework	Data Structures and Algorithms, OOPs, Artificial Intelligence, SDLC (Software Development Life Cycle), Machine Learning
Soft Skills	Communication, Time Management, Creative Thinking

CERTIFICATION

Data Science, DL, SE and Agile development - Infosys Springboard
Artificial Intelligence - IBM
The Joy of Computing Python – NPTEL
AWS Cloud Practitioner Essentials - AWS

PROJECT

AI-Powered Chatbot (Current): Developing an AI-powered chatbot assistant that integrates Gmail, Google Calendar, Google Drive, and Google Sheets using official Google APIs to enable natural language-based interaction across services.

Smart Water Quality Monitoring Bottle: Designed a portable bottle with sensors to measure TDS, pH, and temperature in real time, providing instant feedback to ensure water safety, especially in remote areas.

Social Cop Mobile Application: Developed a mobile app enabling real-time communication between citizens, community helpers, and police, with features such as incident reporting and SOS alerts for emergency situations.

Publication

Published research paper on this project in the IIJTCE journal, June 2025. ([Paper Link](#))
